17/01/2020

Dear Mr Christoforou,

Congratulations on purchasing your new Vaillant ecoTEC plus 630.

We are pleased to advise that you have successfully registered a guarantee for your new product at St. Catherines, New North Road, Exeter, Devon, United Kingdom, EX4 4AG.

Your guarantee includes the following:

10 year extended guarantee including parts and labour from 17/01/2020 - 16/01/2030

The terms and conditions applicable for the extended guarantee (Standard and Extended) are overleaf and enclosed. Please keep these documents safe for future reference.

Please note the following key terms in relation to your guarantee and ensure that your Gas Safe registered engineer is familiar with the terms and conditions in order to maintain this guarantee:

- The boiler must be serviced annually by a registered Gas Safe Engineer in accordance with the manufacturer's instructions.
- Service details must be recorded in the Benchmark logbook.
- Please note that the cost of the annual service is not included in the guarantee period.

In the event of a breakdown it is advisable to contact your installer to confirm that there is a boiler fault or alternatively you can contact us on 0330 100 3150 and speak to our Call Centre. Lines are open 7 days a week except Christmas Day.

If your installer does not provide an annual service agreement you can call Vaillant to service your appliance on 0330 100 3471 where one of our dedicated service staff will be happy to assist you further.

You can also book a service visit online at www.vaillant.co.uk

Thank you for choosing a Vaillant boiler.

Yours sincerely

Vaillant Group Service

Vaillant Group UK Limited ('Vaillant') Guarantee Terms and Conditions

To receive the full benefits of the extended guarantee the following terms and conditions must be followed or your claim will be rejected:

If your installer advises you of a boiler fault, please contact Vaillant Service.

1. Installation and commissioning must be carried out by a Gas Safe** registered engineer, within 6 months of despatch of the boiler from Vaillant's warehouse.
 2. All works must be fully in accordance with the installation manual and these terms and conditions.
 3. The Benchmark log book must be completed by the installer at the point of installation and retained on site for inspection during an engineer's visit
 4. The guarantee will commence from the date of installation. To validate this Vaillant will require proof of purchase – i.e. an invoice or completed Benchmark logbook, without which the guarantee will commence from the date of manufacture, as shown on the boiler data plate.
 5. The boiler guarantee must be registered within 30 days of installing the appliance. Failure to register within this time period will result in the guarantee reverting to 12 months from date of installation. To register your guarantee and for further details go to our web site at: www.vaillant.co.uk
 6. To register you must provide the full 28 digit serial number of the appliance. This is clearly shown on the:
 - Boiler packaging
 - Appliance data plate
 - Removable stickers attached to the top of the boiler
 - Back of the control box
 7. The boiler must be serviced annually by a Vaillant or other registered Gas Safe Registered engineer in accordance with the manufacturer's instructions.
 8. Service details must be recorded in the Benchmark logbook which must be available for inspection.
 9. The cost of annual servicing is not included in the guarantee
 10. The guarantee applies only to boiler component failures and does not apply to any other central heating system components external to the boiler, (such as room thermostats, time controls, motorised valves etc.).
 11. Any Vaillant article or accessory supplied other than the boiler, e.g. control, will be covered by a separate guarantee relating to that accessory.
 12. The guarantee will cover material and labour charges to repair or replace components within the boiler against manufacturing defects from the installation date, provided the repair is carried out by Vaillant or a Vaillant authorised Gas Safe registered engineer.
 13. Invoices for attendance and repair of this appliance by third parties will not be accepted for payment unless pre-authorised in writing by Vaillant.
 14. The guarantee on any repair or replacement parts (including boiler replacement, should it be necessary) does not extend the guarantee period in relation to the appliance beyond the original term as defined in accordance with clause 5.
 15. If any failure is caused by contaminated water in the boiler (e.g. blockages, or influences of flux residues, iron oxides, limescale, sludge etc.) the engineer's visit becomes chargeable at the prevailing rates.
 16. Moving the boiler to another property without Vaillant's written consent will invalidate the guarantee.
 17. Self-maintenance tasks such as re-pressurising the system, bleeding air or thawing frozen condensate pipes are not covered by the guarantee. In these instances Vaillant recommends you contact your Gas Safe registered engineer.
- ** or its equivalent body
18. The guarantee does not include cover for fair wear and tear, wilful damage, abnormal storage or working conditions, accidental damage or negligence by you or by any third party and failure by you or any third party to operate or use the products in accordance with the operating instructions.
 19. The guarantee does not cover installation in mobile leisure accommodation vehicles – i.e. boats, caravans etc.
 20. The guarantee does not cover consequential losses relating to any other costs or expenses caused by or arising as a result of the breakdown of a Vaillant boiler.
 21. All installation related, non-boiler or external system fault calls will be charged to you and could also invalidate your guarantee.
 22. Health and safety is paramount to us and if our engineers cannot gain safe access to the boiler or an engineer cannot gain access to the property then Vaillant's abortive charge will apply.
 23. For calls requested to boilers within the guarantee period a refundable deposit may be required prior to the commencement of any works or any visit. This deposit will not be retained if the diagnosed fault is covered by the boiler guarantee.
 24. If these terms and conditions have not been complied with in full then Vaillant reserves the right to declare your guarantee as null and void. Vaillant's decision regarding guarantee claims is final.
 25. If this guarantee is declared null and void, upon your request, Vaillant may offer to provide an extended guarantee product for repairs and annual services for an additional cost.
 26. This guarantee is in addition to, and does not affect, your statutory rights in relation to any product that is faulty or not as described.
 27. The use of any non-genuine Vaillant spare parts in any repair will invalidate the guarantee
 28. In registering the guarantee please note that Vaillant will share your personal data with its business partners in order to assist with the administration of the guarantee
 29. The guarantee is provided to you by Vaillant Group UK Limited, (registered in England with Company Registration No. 00294316) of Nottingham Road, Belper, Derbyshire, DE56 1JT
 30. The guarantee is valid for installation in domestic dwellings in the United Kingdom and the Republic of Ireland, Isle of Man and Channel Islands.
 31. The terms of this guarantee are subject to the laws of England and Wales and any dispute arising from this guarantee shall be decided under those laws and before a court or tribunal in England.

Vaillant Group UK Limited will use your information (which you or others have provided to us) to provide the requested service and administration and shall be held in accordance with our privacy policy available on our website: www.vaillant-advance.co.uk/about/privacy.

For the purpose of administering the Vaillant Advance Guarantee programme, Vaillant Group UK Limited has contractually engaged with River Marketing Limited to administer the warranty scheme. Therefore we may need to share your personal data with them.

Vaillant Group remains the controller of your personal data and prescribes under contract with River Marketing, how personal data can be lawfully used. River Marketing cannot share your data with any third parties or use your data for their own purposes.

If you have any questions about this privacy notice, including any requests to exercise your legal rights please email DataprotectionUK@Vaillantgroup.com.

Terms and Conditions for Boiler Guarantee extension

Products Covered: ecoTEC exclusive (green iQ): 800 series combination boilers and 627 system boiler ecoTEC plus: 800 series combination boilers, 600 series system boilers, 400 series open vented boilers

To receive the benefit of the boiler guarantee extension to 10 years the following terms and conditions must be followed or any claim against the guarantee will be rejected. These terms and conditions are in addition to the Vaillant standard terms and conditions as found on the Vaillant website: www.vaillant.co.uk.

- A Vaillant boiler protection kit (part number 0020278309 or part number 0020278310) must be used, and the following installation and servicing steps conducted in full:
- The heating system filter should be installed in the heating system pipework in line with the filter installation instructions enclosed in the pack.
- The heating system must be flushed, cleansed and inhibited in accordance with BS7593.
- In all instances a suitable corrosion inhibitor must be introduced into the clean primary water system as described in the manufacturer's instructions.
- It is essential that the pH level is as per manufacturer's instructions at all times – a litmus test kit is provided to confirm this and results must be noted in the relevant section below and upon yearly service in the comments section of the Benchmark logbook.
- The cleanliness of the heating system should be confirmed by use of a turbidity tube.
- The appliance and the system need to be serviced annually. The service process must be as described within the installation and maintenance instructions of the boiler and the Boiler Protection Kit.
- The effectiveness or strength of the inhibitor and consequent cleanliness of the heating system must be checked every 2 years, action taken as appropriate, and noted in the Benchmark logbook.
- The boiler extended guarantee must be registered by an Vaillant Advance Loyalty Club registered installer within 30 days of installing the appliance, together with the boiler protection kit on the Vaillant Advance Loyalty Club website or via the App.
- Failure to register within this time period will result in the guarantee reverting to standard Vaillant Advance Loyalty Club guarantee levels.
- To register you must provide the full 28 digit serial number of the appliance and the full 28 digit serial number of the Boiler protection kit. The boiler serial number is clearly shown on the: boiler packaging, appliance data plate, removable stickers attached to the top of the boiler and the back of the control box.
- The boiler protection kit serial number is clearly shown on the product packaging.
- The extended guarantee will cover material and labour charges to repair or replace components within the boiler against manufacturing defects from the installation date, provided this is carried out by Vaillant or a Vaillant authorised Gas Safe registered engineer.
- Invoices for attendance and repair by third parties will not be accepted for payment by Vaillant.
- When claiming on the guarantee the following will be requested:
 1. Proof of the date of installation
 2. Proof that the appliance was correctly commissioned (completed Benchmark logbook, signed by the commissioning engineer)
 3. Proof that the annual service has been completed to manufacturer's requirements.
